Troubleshooting Access

A guide to troubleshoot access to your BCE Connect and Parent Portal account.

Q. I receive either of the following messages trying to log on

- A. Each time a file is accessed through a web browser (*Internet Explorer, Firefox, Chrome* etc), the browser caches (i.e., stores) a file so it doesn't have to keep retrieving the same files or images. Periodically clearing the cache allows the browser to function more efficiently. If you click on this link it will give you instructions on how to [Clear cache and cookies](#). If you are still unable to log on after clearing cache and cookies, please confirm you have enabled cookies to be stored on your device.
- If you continue to experience difficulties with logging in via the browser, attempt to use another browser/device or alternatively login directly via the BCE Connect Mobile Application.

Q. Are you logging in with the exact email address provided to the school?

- A. Sometimes the email address you are trying to use may be different to the one recorded in eMinerva (the Student and Related Person Database). Ensure that the email address you are using is exactly what the school has recorded.

Q. Are you using an email address that is associated with another person?

- A. Our system creates a unique account based on several criteria; the main criteria is email address. If you are using an email address that is also associated with another account, it's likely one person associated with the email address will experience conflicts.
